

BIG BEN

It looks like an ordinary big clock but it's part of the Houses of Parliament. Big Ben isn't the clock, it's the name of the bell inside the tower of the clock. This bell sounds every hour.

The Big Ben is one of the most famous monuments in London.

At night is one of the most visited monuments because of its night lights.

I want to visit London because I want to see the Big Ben in person.

I think it's a beautiful monument.
